

MS Society Corporate Challenge 2024

Multiple sclerosis (MS) damages nerves in your body and makes it harder to do everyday things like walk, talk, eat and think. It can be relentless, painful, and exhausting. Over 130,000 people live with MS in the UK, yet many are without treatment.

Our **Stop MS Appeal** needs to raise £100 million to find treatments for everyone with MS. To make treatments to stop MS a reality, we must fund more world-leading research. We won't stop funding new studies, vital infrastructure projects and ground-breaking clinical trials. By 2025 we aim to be in the final stages of testing a range of treatments for everyone with MS. We can finally see a future where no one needs to worry about MS getting worse.

Take part in our 2024 Corporate Challenge and help stop MS.
